

## BS in Computer Science: Animation Emphasis Undergraduate Application

Admission into the Animation Emphasis in CS requires an application. If the program is a good fit for your talents and interests, then the animation emphasis will be a key part of your education. The point of the application is to give you a chance to help the committee see why admission into the program is likely to be a good fit for your talents and interests. As you assemble your application keep in mind that it is better to select a few key images, animation sequences or other elements that highlight your strengths than it is to include a large, unorganized collection of items.

### Application Requirements:

- ✓ A PDF document which contains the following (in this order):
  - Your name, BYU ID, email address and phone number.
  - A statement of intent describing what you intend to do with your degree in CS with an animation emphasis (1-2 paragraphs maximum)
  - A handful of images that you believe are your best work
  - Code samples that demonstrate your programming ability (1-2 pages maximum)
  - Your grades in the required courses CS 142, CS 235 and CSANM 150. If you are currently taking a prerequisite course during the semester of application, please note that. We will pull your grades once they post.
  - A copy of your transcripts (does not need to be an official copy). Go to MyBYU >> Campus Links >> School >> AIM >> grades to download your grades.
- ✓ Video sequences that show your animation, FX, or other graphics-related skills. These should be assembled into a single video file. This element is strongly recommended but not required for a complete application. Please clarify exactly which work you did and didn't do.
- ✓ The PDF and video file will be the only files looked at by the committee. Please don't include any other files.

### Application deadline / website

Please upload your application to <https://forms.gle/yc41ULGHm2aTFQaY6>. All applications must be fully uploaded and completed by **Tuesday, December 15, 2020 at 11:59 p.m.**

Please note that the CS office will close at 5 p.m. on Wednesday April 15, 2020—you will not be able to get any questions answered after that time.
